

Can You Feel the Love Tonight

(need two groups for first bit)

1: I can see what's happening

2: What?

1: And they don't have a clue.

2: Who?

1: She'll fall asleep and here's the bottom line... Pj will get us too!

All:

The sweet caress of naptime
There's dozing everywhere
And with all these boring lectures
Disaster's in the air

Can you feel the sleepiness?
The warm lecture hall.
Students for once in perfect silence
As he enchants them all.

So much maths to teach them
How can he make them see?
The beauty of DA - impossible
They won't want this degree

He won't hold back, won't notice
As her attention dies
Why won't PJ give Snow White a break?
Is this his last slide?

Can you feel the sleepiness?
The warm lecture hall.
Students for once in perfect silence
As he enchants them all.

Can you feel the sleepiness?
As Snow White's eyelids droop?
The maths goes on and on forever,
Until her head falls too

And if PJ won't stop this now
It will be too late

Snow White will sleep until the end of time

And PJs plan succeeds
