

"End Of The Panto"

DA team, their evil innate
Making schemes with the mirror
In came Snow White and her stature was great
And PJ wants her height on his side

So many dwarves, which supervisor?
Snow chose the projects with glaciers
PJ won't let other groups work with her
With Bear Grylls, his new plan, it could thrive...

It's the end of the panto
And we've woken Snow White
Now she needs to submit a research paper
By the second committee
Or she'll be left behind
So she's got to be done by the end of the panto

Baked a cake, in comes PJ
With his plan, to get Snow White
It didn't work so he taught her DA
Went to sleep, she was so uninspired

It's the end of the panto
And we've woken Snow White
Now she needs to submit a research paper
By the second committee
Or she'll be left behind
So she's got to be done by the end of the panto

PJ schemed, Met was the prize
He was going to take over
Giles came in and he shrank him to size
Now he is, Just a dwarf, with a beard

It's the end of the panto
And we've woken Snow White
Now she needs to submit a research paper
By the second committee
Or she'll be left behind
So she's got to be done by the end of the panto

The end of the panto
The end of the panto
The end of the panto
The end of the panto
