DARE TO DISCOVER
DATA ASSIMILATION

Data Assimilation Minus the Maths

Data assimilation has potential applications in a wide variety of fields. This course provides an introduction to the basic concepts of data assimilation without assuming a background in mathematical concepts or any specialist subject knowledge.

- **BASIC CONCEPTS**
- **HOW IT WORKS**
- **USES AND APPLICATIONS**

FREE AND SELF-PACED
Learn independently at your own pace by working through the interactive online lessons. Register for free to access the full course.

SHARE AND DISCUSS
Users are encouraged to participate in forum discussions to share ideas and ask questions.

The course open for participation at any time. However, facilitators will be available to support course participants **7-28 November 2022.**
