

Code Club

Make a Sprite move in a Spiral <https://scratch.mit.edu/projects/374432790>

If you haven't got your own account yet, log in as HilarysCodeClub, password cavprimary.

Your Challenges

1. Make your sprite move in a spiral. You can use this code.
2. Make the sprite get smaller as it spirals inwards
3. My sprite spirals inwards then spirals outwards backwards. Can you fix it to always spiral inwards in ever decreasing circles?

For parents and children

- Contact h.weller@reading.ac.uk for announcements
- Get an account at <https://scratch.mit.edu> to use at home and school
