

Car Parking
scheme

Permit Holders Parking Only

Please note this land is privately owned

**Do not park in this car park unless you have
a current valid permit on display at all times**

In fact, don't bother parking here at all, whether you have a permit or not. Why not leave your car at home for a change? Cars cause climate change, which by common consent is the most severe threat facing humanity.

Driving is as unacceptable, in terms of its impact on human well-being, as physical abuse. The fact that the victims live in far-away countries and decades is hardly a valid defence. You might as well just hit them at 70mph. You probably think this is an extreme point of view, but are you rationally able to refute it?

**Do not park here unless you agree to the
contractual consequences**
